

BedfordSports.com announces team that will provide live audio broadcast of varsity games

Bedford High School alumni Rob Watson (2001), Dan Roth (2002) and Dustin Cress (2001) will partner with Larry Mauter and BedfordSports.com to bring a live audio broadcast of all Bedford varsity football games this fall.

This will be the eighth full season the announcing team is scheduled to broadcast the

slate of Bedford games, and the 16th consecutive season the team has in some way brought Mules football to the airwaves. The executive producer for the broadcasts is another Bedford alumnus, Joe Coutcher (2002).

The team previously worked with the school's broadcasting department on TV and FM radio before broadcasting inde-

pendently as FFR Media during the past two seasons.

Each week's broadcast will feature a 10- to 15-minute interview during the pregame segment with Bedford head coach Jeff Wood and other features throughout the season to highlight events and activities going on at the high school.

Broadcasts can be found live

online starting at 6:30 p.m. each Friday night at BedfordSports.com.

BedfordSports.com has a limited amount of advertising space left available for its football broadcasts. For information, contact Larry Mauter at info@bedfordsports.com

The broadcast crew supports the Bedford High School

Alumni Association and Bedford Football Parents Club, and urges their listeners to support those organizations throughout the season. For information, contact Dustin Cress at cress112@live.com.

The first game of the season is Aug. 28 at the University of Toledo's Glass Bowl to take on Toledo St. Francis de Sales.
