

O'Dell's experience worthy of voters' confidence

Please consider my long-time friend Larry O'Dell as a returning trustee in this important election.

There are going to be many changes in the makeup of the elected officials in the upcoming election of Nov. 6. There are excellent choices on the ballot. Most of these folks I know or know of their association with the township. They are certainly to be applauded for taking a stand in the

makeup of local government.

Mr. O'Dell has eight years' experience as trustee. He has worked very closely with his associates, and with residents on many issues. Larry will always return your calls and listen to your concerns. He has worked with the roads and has been on the budget committee, among other township programs. Larry has been our

Park Commission for the last four years. He has been very helpful with ideas and support in our park's maintenance and development, not only ideas but also rolling up his sleeves and jumping in with our volunteers.

This all-around experience will be an asset to the many new people working together to make a better Bedford.
