

BEDFORD COMMUNITY STADIUM

REVISED REST ROOMS & MEETING ROOMS

4. This plan would combine both home side rest rooms (which originally called for 2 separate rest rooms located at the east and west end of the home stands) into one building located under the home stands behind the press box wall. Team meeting rooms and storage would be built under the home stands from the rest rooms out to the end of each side of the home stands. This plan would solve the potential problem of congestion if the rest rooms were located near the concession stands at each end of the home stands.
